I hereby certify that the information contained in this application is, to the best of my knowledge, correct and that the organization named above has authorized me as its representative to obligate this organization in a legally binding contractual agreement. I further certify that any ensuing program and activity will be conducted in accordance with all applicable federal and state laws and regulations, application guidelines and instructions, the general provisions and assurances, debarment and suspension certification, lobbying certification requirements, special provisions and assurances, and the schedules attached as applicable. It is understood by the applicant that this application constitutes an offer and, if accepted by the Agency or renegotiated to acceptance, will form a binding agreement.

Schedule #1—General Information	<u>ı</u> (cont.)
County-district number or vendor ID: 011-901	Amendment # (for amendments only):
Part 3: Schedules Required for New or Amended Applications	

An X in the "New" column indicates a required schedule that must be submitted as part of any new application. The applicant must mark the "New" checkbox for each additional schedule submitted to complete the application.

For amended applications, the applicant must mark the "Amended" checkbox for each schedule being submitted as part of the amendment.

Schedule	Schedule Name	Application Type	
#	Schedule Name	New	Amended
1	General Information		$\boxtimes$
2	Required Attachments and Provisions and Assurances		N/A
4	Request for Amendment	N/A	$\square$
5	Program Executive Summary		
6	Program Budget Summary		
7	Payroll Costs (6100) – SEE NOTE	See	
8	Professional and Contracted Services (6200) – SEE NOTE	Important	
9	Supplies and Materials (6300) - SEE NOTE	Note for	
10	Other Operating Costs (6400) – SEE NOTE	Competitive	
11	Capital Outlay (6600/15XX) – SEE <b>NOTE</b>	Grants*	
12	Demographics and Participants to Be Served with Grant Funds		
13	Needs Assessment		
14	Management Plan		
15	Project Evaluation		
16	Responses to Statutory Requirements		
17	Responses to TEA Requirements	$\boxtimes$	
18	Equitable Access and Participation		

\*IMPORTANT NOTE FOR COMPETITIVE GRANTS: Schedules #7, #8, #9, #10 and #11 are required schedules if any dollar amount is entered for the corresponding class/object code on Schedule #6—Program Budget Summary. For example, if any dollar amount is budgeted for class/object code 6100 on Schedule #6—Program Budget Summary, then Schedule #7—Payroll Costs (6100) is required and if it is either blank or missing from the application, the application will be disqualified.

Schedule #2—Required Attachments and Prov	isions and Assurances
County-district number or vendor ID: 011-901	Amendment # (for amendments only):
Part 1: Required Attachments	

The following table lists the fiscal-related and program-related documents that are required to be submitted with the application (attached to the back of each copy, as an appendix).

#	Applicant Type	Name of Required Fiscal-Related Attachment
No fi	scal-related attachments are requi	ired for this grant.
#	Name of Required Program-Related Attachment	Description of Required Program-Related Attachment
No program-related attachments are required for this grant.		
Part 2: Acceptance and Compliance		

By marking an X in each of the boxes below, the authorized official who signs Schedule #1—General Information certifies his or her acceptance of and compliance with all of the following guidelines, provisions, and assurances.

Note that provisions and assurances specific to this program are listed separately, in Part 3 of this schedule, and

require a separate certification.

x	Acceptance and Compliance
$\boxtimes$	I certify my acceptance of and compliance with the General and Fiscal Guidelines.
	I certify my acceptance of and compliance with the program guidelines for this grant.
$\boxtimes$	I certify my acceptance of and compliance with all General Provisions and Assurances requirements.
$\boxtimes$	I certify that I am not debarred or suspended. I also certify my acceptance of and compliance with all Debarment and Suspension Certification requirements.
$\boxtimes$	I certify that this organization does not spend federal appropriated funds for lobbying activities and certify my acceptance of and compliance with all Lobbying Certification requirements.
$\square$	I certify my acceptance of and compliance with No Child Left Behind Act of 2001 Provisions and Assurances requirements.

Schedule #2—Required Attachments a	ınd Provisions and Assurances
County-district number or vendor ID: 011-901	Amendment # (for amendments only):
Part 3: Program-Specific Provisions and Assurances	

$\boxtimes$	I certify my acceptance of and compliance with all program-specific provisions and assurances listed below.
#	Provision/Assurance
1.	The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates, State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this grant will be supplementary to existing services and activities and will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
2.	The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights and Privacy Act (FERPA) from general release to the public.
3.	The applicant provides assurance that, if it receives these program funds to serve one or more campuses, it will ensure each campus receives all of the state and local funds it would have received in the absence of these program funds. As a result, an LEA must provide the TTIPS grantee campus all of the non-Federal funds the campus would have received were it not a TTIPS grantee campus, and these program funds must supplement the amount of those non-Federal funds. Note, however, that the campus does not need to demonstrate that these program funds are used only for activities that supplement those activities the campus would otherwise provide with non-Federal funds.
4.	The applicant provides assurance that the education program described below is unique to the applicant. An applicant that plagiarizes or copies any other application does not meet this standard and will be disqualified.
5.	<ol> <li>The LEA provides assurance that it will meet the following federal requirements:         <ol> <li>Use its TTIPS Grant to fully and effectively implement an intervention package in each school that the LEA commits to serve, consistent with the final requirements.</li> <li>Establish annual goals for student achievement on the State's assessments in both reading/language arts and mathematics, measure progress on the leading indicators in section III of the final requirements and establish goals to hold schools receiving school improvement funds accountable.</li> </ol> </li> <li>If it implements a restart model in a school, hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements, and it include these terms in its contract or provisions</li> <li>Monitor and evaluate the actions a school has taken, as outlined in the approved TTIPS application, to recruit, select and provide oversight to external providers to ensure their quality.</li> <li>Monitor and evaluate the actions schools have taken, as outlined in the approved TTIPS application, to sustain the reforms after the funding period ends and that it will provide technical assistance to schools to sustain progress in the absence of TTIPS funding.</li> <li>Report school-level data to the SEA required under section III of the final requirements, and included in</li> </ol>
	the Program Guidelines of this RFA.
6.	The LEA provides assurance that it will participate in any evaluation of the grant conducted by the U.S. Department of Education, including its contractors, or the Texas Education Agency, including its contractors.
7.	The LEA/campus provides assurance that if it selects to implement the <a href="mailto:transformation">transformation model</a> , the campus will meet all of the following federal requirements:  1. Develop and increase teacher and school leader effectiveness.  (A) Replace the principal who led the school prior to commencement of the transformation model;  (B) Use rigorous, transparent, and equitable evaluation systems for teachers and principals that—  i. Take into account data on *student growth* as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and
	For TEA Use Only

8.

- ii. Uses the definition of *student growth* as: the change in achievement for an individual student between two or more points in time. For grades in which the State administers summative assessments in reading/ language arts and mathematics, student growth data must be based on a student's score on the State's assessment under section 1111(b)(3) of the ESEA. A State may also include other measures that are rigorous and comparable across classrooms.
  - iii. Are designed and developed with teacher and principal involvement;
- (C) Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and high school graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so:
- (D) Provide staff ongoing, high-quality, job-embedded professional development (e.g., regarding subject-specific pedagogy, instruction that reflects a deeper understanding of the community served by the school, or differentiated instruction) that is aligned with the school's comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and
- (E) Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a transformation school.
- 2. Deliver comprehensive instructional reform strategies.
  - (A) Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards; and
  - (B) Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students.
- 3. Increase learning time and creating community-oriented schools.
  - (A) Establish schedules and strategies that provide increased learning time; using a longer day, week or year; and by addressing each of the following areas:
    - Additional time for instruction in core academic subjects including English, reading or language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography.
    - ii. Additional time for instruction in other subjects and enrichment activities that contribute to a well-rounded education, including, for example, physical education, service learning, and experiential and work based learning opportunities that are provided by partnering, as appropriate, with other organizations.
    - iii. Additional time for teachers to collaborate, plan, and engage in professional development within and across grades and content areas.
  - (B) Provide ongoing mechanisms for family and community engagement.
- 4. Providing operational flexibility and sustained support.
  - (A) Give the school sufficient operational flexibility (such as staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; and
  - (B) Ensure that the school receives ongoing, intensive technical assistance and related support from the LEA, the SEA, or a designated external lead partner organization (such as a school turnaround organization or an EMO).

The LEA/campus provides assurance that if it selects to implement the <u>Texas state-design model</u>, the campus will deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS). In doing so, the LEA/campus will implement the following:

 Pursue designation as a Texas Early College High School, with a target of earning TEA ECHS designation and full-operation as an ECHS, no later than the start of the second year of the TTIPS grant implementation period; Fall 2017.

For TEA	Use Only
Changes on this page have been confirmed with:	On this date:

- 2. Create an innovative high school that enables students to graduate with a high school diploma and an associate degree; or high school diploma and 60 college credit hours toward a baccalaureate degree.
- Provide college credit earned through the high school years for all students at no cost; including tuition, fees and textbook costs.
- 4. Develop and increase teacher and school leader effectiveness through use of the Texas Teacher Evaluation and Support System and Texas Principal Evaluation and Support System.
- 5. While implementing for all students, the program specifically identifies students for more intensive supports. These students include those at-risk for dropping out of school, as defined in Texas statedefined criteria in TEC §29.081; and students historically underrepresented in college courses. In developing and providing the more intensive supports, , the LEA/campus will have:
  - (A) Data to identify the population at risk of dropping out of school;
  - (B) Quantitative and qualitative data to identify students least likely to attend college/those historically underrepresented in college courses;
  - (C) Early College brochures in all languages relevant to the school community;
  - (D) Written communication plan for relevant target audiences: parents, community members, school board.

Adapted from Texas Early College High School Blueprint, Benchmark 1.

- 6. By the start of TTIPS full-implementation (Fall 2016), the LEA/campus will have key partnerships in place that will enable success as an Early College High School. These partnerships are marked by signed Memoranda of Understanding with current signature each year of implementation. Key partnerships include:
  - (A) Partnership between the school district and an institute of higher education (IHE) that:
    - Defines the partnership between the LEA/campus and the IHE and addresses topics including, but not limited to: the ECHS location, the allocation of costs for tuition, fees, textbooks, and student transportation;
    - ii. Defines an active partnership between the school district(s) and the IHE(s), which shall include joint decision-making procedures that allow for the planning and implementation of a coherent program across institutions; and
    - iii. Includes provisions and processes for collecting, sharing, and reviewing program and student data to assess the progress of the ECHS.
  - (B)Contract/partner with the Texas Early College High School Technical Assistance provider for access to training, coaching, and technical assistance through to earning designation. Once designated, will continue work with the technical assistance provider as is required as a condition of TEA designation.
  - (C) Contract/partner with a Texas Early College High School demonstration site. Demonstration sites are identified by TEA each year from 2015-2016 forward. Terms of the contract/partnership shall be designed for demonstration site/ model program for the TTIPS LEA/campus by TEA in

early 2015-2016

# Adapted from Texas Early College High School Blueprint, Benchmark 2.

7. By the start of TTIPS planning/pre-implementation year (January 1, 2016), the LEA and key partners must have developed and be maintaining a leadership team focused on P-16 Leadership Initiatives that meets regularly to address issues of the ECHS design and sustainability. At minimum, the membership shall include the campus principal and individuals with decision-making authority from both the LEA and IHE.

Adapted from Texas Early College High School Blueprint, Benchmark 3.

- 8. Provide a curriculum that offers a rigorous and accelerated course of study, in both college-credit bearing courses and preparatory/college readiness courses. Additionally, the program must provide students with the academic, emotional and social supports necessary to be successful in the rigorous course of study. The curriculum and supports must meet the following:
  - (A) Beginning in TTIPS first year of full-implementation (Fall 2016), have curriculum in place that allows all students to graduate high school with at least six semester credit hours toward a baccalaureate degree.
  - (B) By TTIPS second year of full-implementation (Fall 2017), have curriculum in place that enables students to receive a high school diploma and complete the Texas Higher Education Coordinating Board's (THECB) core curriculum (as defined by TAC §4.28); or an associate's degree; or at least 60 credits toward a baccalaureate degree during grades 9-12.
  - (C) Possess a written course of study plan showing how students will progress as an ECHS graduate. The plan must provide pathway to a baccalaureate degree and follow the courses and fields of study listed in the THECB Lower Division Academic Course Guide Manual.
  - (D) Beginning in the TTIPS first year of full-implementation, the campus will provide academic supports to the students in the form of: extended learning time sessions for tutoring, advisory and/or college readiness support time built into the program of study, and a college-readiness mentorship program.
  - (E) Beginning in the TTIPS planning/pre-implementation year, the campus will provide social and emotional supports to the students, including: connections to social services, parent outreach and involvement opportunities.
  - (F) Beginning in the TTIPS first year of full-implementation, the campus will provide college awareness and access services to students and families, including: college application assistance, financial aid counseling, college and career counseling.

Adapted from Texas Early College High School Blueprint, Benchmark 4.

By the TTIPS first year of full-implementation, the campus shall provide for the administration of the Texas Success Initiative (TSI) college placement exam to students in order to assess college readiness, design-individual instruction plans, and enable students to begin college courses based on their performance. Fees associated with assessment administrations must be waived/covered for all students. Adapted from Texas Early College High School Blueprint, Benchmark 5.

For T	EA Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

- 9. By the start of the TTIPS second year of full-implementation (Fall 2017), the campus will provide a full-day program at an autonomous high school; operating with:
  - (A) An IHE liaison with decision-making authority who interacts directly and frequently with the campus staff and administrators;
  - (B) A highly qualified teaching staff possessing appropriate level of certification, training and ongoing supports to teach college-bearing courses to high school students.
  - (C) Clear opportunities for students to have regular use (at least six times per school year) of college academic facilities, regardless of early college school site.
  - (D) Opportunities for high school faculty and staff to receive regular training and support; in collaboration with the IHE faculty and staff.

#### Adapted from Texas Early College High School Blueprint, Benchmark 6.

The Texas concept for an Early College High School is fully described in the following resources:

- Texas Education Agency, Early College High School program
- Texas Education Code §29.908
- Texas Administrative Code §4.161
- 19 Texas Administrative Code Chapter 102 Educational Programs Subchapter GG: <u>Commissioner's Rules</u> <u>Concerning Early College Education Program</u>

The applicant provides assurances that the LEA/campus administering the state-design model will submit an Early College High School Readiness Assessment as a supplement to the TTIPS required Implementation Readiness Portfolio. Assessment forms will be provided by the TEA TTIPS program office.

The applicant provides assurances that the LEA/campus administering the state-design model will apply for Texas Early College High School designation, no later than applications are available for schools that wish to be designated for the 2017-2018 school year.

The LEA/campus provides assurance that if it selects to implement the **Early Learning Intervention Model** in an elementary school, the campus will implement in accordance with the following federal requirements:

1. Offer full-day kindergarten.

9.

Establish or expand a high-quality preschool program.
 A high-quality program includes structural elements th

A high-quality program includes structural elements that are evidence-based and nationally recognized as important for ensuring quality. Implementation under this grant program must meet the requirements of a high-quality preschool program, as defined in the U.S. Department of Education's Preschool Development Grants program. Under this definition, program must have:

- (A) High staff qualifications, including a teacher with a bachelor's degree in early childhood education or a bachelor's degree in any field with a state-approved alternative pathway;
- (B) High-quality professional development for all staff;
- (C) A child-to-instructional staff ratio of no more than 10 to 1;
- (D) A class size of no more than 20 with, at a minimum, one teacher with high staff qualifications;
- (E) A full-day program;
- (F) Inclusion of children with disabilities to ensure access to and full participation in all opportunities;

Changes on this page have been confirmed with:	On this date:	
Via telephone/fax/email (circle as appropriate)	By TEA staff person:	

RFA #701-15-107; SAS #191-16 2015-2020 Texas Title I Priority Schools, Cycle 4

- (G) Developmentally appropriate, culturally and linguistically responsive curricula, and learning environments that are aligned with the state early learning and development standards for at least the year prior to kindergarten entry;
- (H) Individualized accommodations and supports so that all children can access and participate fully in learning activities;
- (I) Instructional staff salaries that are comparable to the salaries of local K-12 instructional staff;
- (J) Program evaluation to ensure continuous improvement;
- (K) On-site or accessible comprehensive services for children and community partnerships that promote families' access to services that support their children's learning and development;
- (L) Evidence-based health and safety standards.
- 3. The LEA has assessed the benefits of contracting with a community-based provider to provide the high-quality preschool programs for students enrolled in an elementary school implementing the model, either at the TTIPS campus or through an existing high-quality child care or Head Start program within the LEA or nearby community. The LEA is aware that the preschool is not required to be physically located in the eligible elementary school. However, students must be enrolled in the grantee school that is implementing the early learning model to receive preschool services funded through the grant program.
- 4. Provide educators, including preschool teachers, time for joint planning across grade levels.
- 5. Replace the principal who led the school prior to the commencement of the early learning model.
- 6. Use rigorous, transparent, and equitable evaluation systems for teachers and principals that-
  - (A) Take into account data on student growth as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and
  - (B) Are designed and developed with teacher and principal involvement;
- 7. Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and high school graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so.
- 8. Implement strategies such as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain high quality educators.
- 9. Use data to identify and implement an instructional program that is:
  - (A) Research-based;
  - (B) Developmentally appropriate;
  - (C) Vertically aligned from one grade to the next as well as aligned with State academic standards;
  - (D) Promotes academic content across a range of development: math and science, literacy and language, socio-emotional skills, self-regulation, and executive functions.
- Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual

10.

students.

- 11. Provide staff with ongoing, high-quality, job-embedded professional development such as coaching and mentoring that is:
  - (A) Aligned with the school's comprehensive instructional program
  - (B) Designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to implement school reform strategies.
- 12. Operate in compliance with all regulations in the Texas Pre-Kindergarten Guidelines (PKG).
- 13. Utilize Texas State Board of Education approved pre-kindergarten instructional materials.
- 14. Enroll in the Children's Learning Institute (CLI), <u>CLI Engage</u> platform, and utilize the <u>Texas School</u> Ready! child progress monitoring assessments with pre-kindergarten students.

If selecting the Early Learning Intervention model and receiving these grant funds to support the implementation, the full-day kindergarten and full-day pre-kindergarten programs must be offered free of charge to all enrolled students.

The LEA/campus provides assurance that if it selects to implement the <u>turnaround model</u>, the campus will meet all of the following federal requirements:

- 1. Replace the principal and grant the new principal sufficient operational flexibility (including in staffing, calendars/time, and budgeting) to fully implement a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates;
- 2. Use locally adopted competencies to measure the effectiveness of staff who can work within the turnaround environment to meet the needs of students:
  - (A) Screen all existing staff and rehire no more than 50 percent; and
  - (B) Select new staff
- Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school;
- 4. Provide staff ongoing, high-quality, job-embedded professional development that is aligned with the school's comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies;
- Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new turnaround office in the LEA or SEA, hire a turnaround leader who reports directly to the Superintendent or Chief Academic Officer, or enter into a multi-year contract with the LEA or SEA to obtain added flexibility in exchange for greater accountability;
- 6. Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next, as well as aligned with State academic standards;
- 7. Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;
- 8. Establish schedules and strategies that provide increased learning time; using a longer day, week or

RFA #701-15-107; SAS #191-16

year; and by addressing each of the following areas:

- (A) Additional time for instruction in core academic subjects including English, reading or language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography.
- (B) Additional time for instruction in other subjects and enrichment activities that contribute to a well-rounded education, including, for example, physical education, service learning, and experiential and work based learning opportunities that are provided by partnering, as appropriate, with other organizations.
- (C) Additional time for teachers to collaborate, plan, and engage in professional development within and across grades and content areas.
- 9. Provide appropriate social-emotional and community-oriented services and supports for students.

If selecting the turnaround model, the applicant agrees to the participation of the campus principal or principal candidates in a formative assessment of their turnaround leadership capacity.

The LEA/campus provides assurance that if it selects to implement the Whole-School Reform model, the campus will meet all of the following federal requirements:

- 1. Implement an evidence-based whole-school reform in partnership with a model developer.
  - (A) The model developer is an entity or individual that either has proprietary rights to the model or an entity or individual that has a demonstrated record of success in implementing wholeschool reform models in one or more low-achieving school.
- 2. The whole-school reform model selected must be supported by at least one study that demonstrates its efficacy. The federal SIG office has approved specific whole-school reform models that meet this evidence standard; published here: http://www2.ed.gov/programs/sif/sigevidencebased/index.html These approved models are supported by:
  - (A) A study of efficacy that meets What Works Clearinghouse evidence standards.
  - (B) A study that shows statistically significant favorable impact on a student academic achievement or attainment outcome.
  - (C) A study which used a large sample and multi-site sampling.
- 3. Evidence supporting the efficacy of the whole-school model selected is based on an implementation with a sample population or setting similar to the population or setting of the school being served. The whole-school model must be designed to improve academic achievement or attainment.
- 4. The whole-school model must implement the model for all students in the school.
- 5. The whole-school model must address at a minimum and in a comprehensive and in a coordinated manner:
  - (A) School leadership
  - (B) Teaching and learning in at least one full academic content area
  - (C) Non-academic supports for students
  - (D) Family and community engagement

The LEA/campus provides assurance that if it selects to implement the restart model, the campus will meet all of the following federal requirements:

- 1. Convert or close and reopen the school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) A CMO is a non-profit organization that operates or manages charter schools by centralizing or sharing certain functions and resources among schools. An EMO is a for-profit or non-profit organization that provides "whole-school operation" services to an LEA.
- 2. Select a CMO or EMO using a rigorous review process. This rigorous review process is a determination by the LEA that the CMO is likely to produce strong results for the school, by an assessment that schools currently operated by the CMO or EMO have produced strong results over that last three years, indicated

Schedule #4—Request for Ame	ndment
County-district number or vendor ID: 011-901	Amendment # (for amendments only):
Part 1: Submitting an Amendment	

This schedule is used to amend a grant application that has been approved by TEA and issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment.

An amendment may be submitted by mail **or** by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Division of Grants Administration, Texas Education Agency, 1701 N. Congress Ave., Austin, TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-7915.

The last day to submit an amendment to TEA is listed on the <u>TEA Grant Opportunities</u> page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review and approval by TEA.

### Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend" guidance posted in the Amendment Submission Guidance section of the Division of Grants Administration Administering a Grant page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 and Part 4 of this schedule.

# Schedule #5—Program Executive Summary

County-district number or vendor ID: 011-901

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver.

Please focus the response on the qualities that enable this specific campus and district team to achieve foundational pursuits of a school improvement undertaking: accelerated achievement, system transformation, and sustained reform. Summarize the district commitments to achieve foundational elements through the district's:

- Vision and focus for school reform
- Sense of urgent need for change
- High expectations for results
- Operational flexibilities that will be afforded the campus in a reform effort

Summarize the district and campus capacity and ability to benefit from this grant in terms of:

- Organizational structures
- Existing capacity and resources
- Communication structures

Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

Bastrop ISD's Red Rock Elementary has been identified as a Focus campus that has been rated "Improvement Required" in both the 2014 and 2015 Accountability Ratings, as posted in the Texas Accountability Ratings System for Texas Public Schools and Districts. (20 Priority Points) Utilizing TTIPS funds, the campus will implement an Early Learning Intervention Model at the campus that will increase student achievement by establishing a high-quality preschool program. The program will include structural elements that are evidence-based and nationally recognized as important for ensuring accelerated achievement, profound and radical transformation, and sustained reform.

The district has devised a program that demonstrates a clear ability to benefit from grant resources based on their vision for school reform, district commitments, and existing district capacity and resources, along with well-planned organizational and communication structures that will enable reforms to take place. (10 pts.)

Vision and Focus for School Reform: In order to insure the success of the program in implementing long-term reforms, Red Rock Elementary administration will work with staff and community members to build a collective educational vision that is clear, compelling, and connected to teaching and learning. This collective vision will help the campus to focus on what is important, motivate staff and students, and increase the sense of shared responsibility for student learning. School Reform will address the following areas:

- Offer full-day Pre-Kindergarten and Kindergarten program;
- Ensuring staff includes a teacher with a bachelor's degree in early childhood education or a field within a stateapproved alternative program;
- Developing an instructional model that includes Thinking Maps, 21<sup>st</sup> Century Skills, Sheltered English Instruction, PBL, and authentic reading and writing across content areas;
- Hiring 6 full-time interventionists that will help in planning, developing, and working with teachers to develop classroom Tier I interventions;
- Restructuring classes to ensure that class sizes do not exceed 20 students and that the child-to-instructional ratio
  is no more than 10:1;
- Reviewing instructional salaries in order to ensure that they are comparable to the salaries of local K-4<sup>th</sup> staff;
- Hiring a full-time bilingual Parent Involvement Specialist to help increase parental involvement'
- Improving students access to technology and curriculum that is research-based and proven to increase students' academic performance; and
- Partnering with an independent evaluator that will conduct surveys, review data, and do classroom walk-throughs in order to identify areas of concerns.

<u>Sense of Urgent Need for Change</u>: The district understands that lasting change cannot occur without the commitment of the teachers, staff, community members, and parents. Therefore, the district has outlined the real threats that the campus faces. Threats include:

- Campus staff may face termination or may not have their contracts renewed;
- Campus staff may be reassigned to a different campus;
- The Texas Education Agency may assign a management team or monitor to oversee the campus operations.
   Include conducting interviews and surveys, monitoring expenditures, conducting walkthroughs, and more; and
- The campus may be closed down and students may be reassigned to other campuses.

These threats are designed to be tied to a positive vision for education excellence that will help ensure buy-in from key stakeholders; thus, enforcing successful and consistent program implementation.

Schedule #5—Program Executive Summary (cont.)

County-district number or vendor ID: 011-901 Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

High Expectations for Results: The vision for campus reform will be monitored by setting measurable goals that must be met. Each goal will be aligned to one of the seven Critical Success Factors that have been identified by TEA as being impactful to achieving continuous school improvement:

PROGRAM GOALS Critical Success Factor Goal Increase the percentage of students who pass the STAAR reading test from 64% Improve academic performance to 74% and will have a minimum of a 5% increase each subsequent year. Increase the percentage of students who pass the STAAR writing test from 58% to Improve academic performance 68% and will have a minimum of a 5% increase each subsequent year. Increase the percentage of students who pass the STAAR math test from 59% to Improve academic performance 69% and will have a minimum of a 5% increase each subsequent year. The campus will increase their attendance rates from 95.1% to 96.1% and will have Improve school climate a 0.5% increase each subsequent year. The campus will create and hold 5 new school-related functions annually for Increase family and community parents and community members in order to increase parental involvement. engagement The campus will devise 8 new instances to review data in order to refine classroom Increase the use of quality data to drive instruction instruction, training plans, and program outcomes annually. The percent of teachers that demonstrate growth/improvement in their performance increased teacher quality will increase to 50% and will have a minimum of an 8% growth annually. Increase

In order to ensure that the district meets the program goals, milestones have been identified that will be used to measure whether or not the campus is on track. These milestones will serve as process-based goals that will help ensure that procedures, activities, and services are being conducted. Data will be collected through surveys, assessments and classroom grades, and PEIMS reports in order to monitor Performance Measures and determine whether the program is being successful in showing program growth.

Operational Flexibilities that will be Afforded the Campus in a Reform Effort: The district will provide the campus with operational flexibility, to include staffing, calendars, time, and budgeting) to implement a comprehensive approach to substantially increase student achievement. Initiatives will include:

- Provide teachers the opportunity to attend professional development trainings that support priority school initiatives;
- Extend learning time by 30 minutes in order to increase students' access to math and ELA academics;
- Meet with campus administrators to develop the Campus Calendar to include added opportunities to engage parents and community members in the student culture. This may include parent/teacher conferences, academic nights, etc.;
- Increased planning time provided through Professional Learning Communities; and

will be based on those teachers retained during each year of the program.

Meet with instructional staff to determine what resources are needed to engage students. This may include technology, Rtl software, and student performance incentives.

Organizational Structures: The organizational structures of the district are in place to support student achievement. This organizational structure will encourage the highest levels of performance and allow the district to achieve the programgoals as defined in the vision for school reform. The campus organizational chart will provide staff, students, parents, and community members with clear lines of authority and accountability. Campus leaders, to include teacher mentors and Interventionists will be assigned to provide direct guidance to new and struggling teachers.

Existing Capacity and Resources: The campus will build upon existing capacity and resources, such as instructional coaches, that are available at the campus and district level. This will include moving teachers and staff that have a proven record of success with stipends to serve as teacher mentors and Interventionists, converting existing campus space to serve as computer labs, enhancing existing academic programs, such as after-school tutorials and reading clubs, etc. in order to target additional students.

Communication Structures: The campus will schedule quarterly meetings with district and campus administration in order to review the program's progress. The meetings will be open to the public in order to encourage parent and community participation and ensure program transparency. Stakeholders will be notified of dates of meetings through flyers, which will be posted throughout the school, community, as well as, be sent home to parents; campus marque; campus website; and through the parent notification service. In addition, the meetings will be uploaded to the district and campus websites so that all interested parties that could not attend can view at their own convenience.

Amendment # (for amendments only):

# Part 2: Student Demographics- Comments

Please use this section to add a description of any data about students that was not specifically requested, but is important to understanding the population to be served by this grant program.

Additionally, use this space to describe trends in data, related to students seen over time in areas that are important to understanding your program plan. Applicants must include supporting evidence to explain trends. For example, projected enrollment growth would need to be supported with a report of percent gains in enrollment over the past several years. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The campus has been identified as a Focus campus that has been rated "Improvement Required" in both the 2014 and 2015 Accountability Ratings, as posted in the Texas Accountability Ratings System for Texas Public Schools and Districts. This rating was assigned to the campus based upon the following reasons:

STAAR Test Results: A review of the TAPR and Accountability Summary results for 2012-1015 school-years indicate that Red Rock Elementary has a history of consistently falling beneath the state's average on the number of students who meet the standard in each of the tested areas. In fact, the campus had only 61% of its student's pass all sections of the STAAR test for the 2013-2014 school-year. This is 16% below the state's average of 77%. The table below illustrates that a trend exists in the campus's inability to meet state standards. Areas of weakness are noted in red:

		3-YEAR NEEDS	S ASSESSMENT	TREND RESULT	S	
Year	Ma	th	Rea	ding	Writ	ling
	Campus	State	Campus	State	Campus	State
2014-2015	**	81%	60%	77%	46%	72%
2013-2014	59%	78%	64%	76%	58%	72%
2012-2013	60%	79%	77%	80%	56%	63%
Source: 201	2-13 and 2013-1	4 Texas Academic	Performance Re	nort (TAPR) and	2014-15 Accounts	hility Summary

Source: 2012-13 and 2013-14 Texas Academic Performance Report (TAPR); and 2014-15 Accountability Summary

<u>Student Demographics</u>: The gaps between the campus and state standards can be attributed to the campus high percent of economically disadvantaged students that are derived from minority groups. The table below details the campus demographics in comparison to the state's demographics: Areas of need are notated in red:

Year	Econor Disadva		STUDEN At-R	IT DEMOGR Lisk	Ethnicity I	lispanics	EL	
	Campus	State	Campus	State	Campus	State	Campus	State
2014-2015	81.4%	DNA	74.4%	DNA	69.5%	DNA	46.1%	DNA
2013-2014	82.5%	60.2%	66.1%	49.9%	69.6%	51.8%	46.6%	17.5%
2012-2013	77.3%	60.4%	62.1%	44.7%	62.8%	51.3%	37.5%	17.1%
2011-2012	77.0%	60.4%	56.7%	45.4%	61.4%	50.8%	37.5%	16.8%

Source: 2011-2012 Academic Excellence Indicator System (AEIS); 2012-2013 and 2013-2014 Texas Academic Performance Report (TAPR), and 2014-15 Accountability Summary

<u>Crime-Related Data</u>: In addition to the data listed above, the data provided in the table below also details how performance at school directly impacts the students' future outcomes. Since students who do not develop a good foundation tend to struggle throughout the rest of their education, this leads students to drop out prior to graduation. This, in turn, leads to the high percentage of youth that become involved in criminal activity. Areas of concern are notated in red:

Year	Drop	Out		me Related I astrop Coun		Cri	ime Related Da Texas	ita
<u> </u>	District	State	Youth	All	%	Youth	All	%
013-2014	21.2%	18.7%	515	3,214	16.0%	4,040	1,052,196	.38%

### Part 4: Staff Demographics- Comments

Please use this section to add a description of any data about campus staff that was not specifically requested, but is important to understanding the population to be served by this grant program. Additionally, use this space to describe trends in data related to campus staff seen over time in areas that are important to understanding your program plan. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

For the 2015-2016 calendar school-year, Red Rock Elementary has hired 6 new teachers that have no teaching experience. This is due to the remote location of the campus that makes it hard for the campus to attract any highly – qualified staff. Unfortunately with the addition of the 6 new staff members, the Red Rock campus is now faced with approximately 44% of its staff having less than five years of experience.

Therefore, the campus needs to develop and implement a comprehensive program that will:

- Provide a visible instructional model that includes Thinking Maps, 21<sup>st</sup> Century Skills, SEI, PBL, and authentic writing across all content areas;
- Build operational capacity in order to provide support and to the Principal and Assistant Principal and allow time for them to provide oversight and support to instructional strategies;
- Provide teachers with high-quality professional development training and resources that are designed to increase students' academics and teachers' proficiency; and
- Provide students with a summer school enrichment program.

One of the key reasons for the high teacher turnover is the lack of support and resources each teacher has available to them. Moreover, there is a need for established procedures and programs in place to provide teachers with a structured training plan. Also, there is a lack of teacher mentoring, collaboration, and advancement.

While the district understands the importance in providing teachers with collaborative opportunities and support, the district is faced with the difficult task of organizing and generating buy-in from teachers for this to succeed. Therefore, in order to foster an open, supportive and collaborative campus culture that will allow teachers to seek and attain growth within their field, the district requires the funds to:

- Attract and keep Highly Qualified bilingual teachers;
- Hire a Project Based Learning to provide high-level support in the implementation of the PBL;
- Hire Lead Interventionists that will plan and develop interventions and work with teachers to develop classroom tier interventions;
- Hire an individual that will be directly responsible for organizing and overseeing the creation of the teacher support systems, to include Professional Learning Communities (PLC), a Teacher Mentor Program;
- Provide extra-duty pay to teachers in order to motivate them to not just attend, but to actively take part of and support the new teacher support system; and
- Implement a Teacher Incentive Program that will be offered to teachers that demonstrate growth and improved student academic results.

Through these measures, the district is confident that it can successfully increase the teachers' capabilities, but can also create an added sense of community within the campus. This will ensure that teachers share in the success and failures of the school and push to excel in their teaching strategies.

#### Schedule #13—Needs Assessment

County-district number or vendor ID: 011-901

Amendment # (for amendments only):

Continuous improvement is a systematic approach in school reform, including processes for data analysis, problem identification, root cause analysis, goal setting, intervention design, implementation, monitoring, and evidenced-based progress reporting.

Part 1: Process Description. Describe the process and activities in which you engaged to conduct a data analysis and needs assessment; and select the model, goals, and interventions to be implemented under this grant. In the description, include the team members involved in the planning process, frequency and timeline of planning meetings, and key activities/strategies used to facilitate decision making.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Needs Assessment Process: In preparation for the submission of the Texas Title I Priority Schools (TTIPS), Cycle 4 grant, the district analyzed the needs of Red Rock Elementary. Elements of the needs assessment included the review of the instructional programs that are currently being utilized at the campus, the experience/capabilities of the school leadership team, and the infrastructure that is available for student and teacher use. The goal for the district was not just to identify the areas of need, but to also identify the root cause for the problems. The following is a description of the process and activities that the district utilized to conduct the campus needs assessment and to analyze the data.

Needs Assessment: In conducting the needs assessment, the campus staff collected and reviewed the following data:

- Daily assignment scores
- Attendance records
- Teacher and staff participation
- Quality of available resources
- Parental involvement documentation (sign-in sheets)
- Student and teachers accessibility to resources
- Test scores
- PEIMS 425 records
- Teacher and staff experience
- Teacher and staff recent performance evaluations
- · Quality/dependability of partners and vendors
- Campus hours of operation

Each of these areas was compared to the campus and state data in order to identify which areas required improvement.

Model Selection and Planning Process: The district and campus administration met with key stakeholders to review the results of the needs assessment and determine how to best prioritize the campus' needs. Stakeholders included: Superintendent, Campus Principal, Chief Financial Officer, Assistant Superintendent for Curriculum and Instruction, Counselor, and Teachers. In all, a total of 2 planning meetings were held in the course of a 6 week period. During these meetings, gaps, barriers, and weaknesses were identified and key qualitative dimensions (i.e. priority, severity, urgency, complexity, or mandatory requirements) that support prioritization were applied. Since a significant gap was identified in the students' academic scores and teacher experience, the district chose to implement the TTIPS Early Learning Intervention Model. This would allow the campus to utilize funds to restructure and enhance existing resources and programs, while also implementing new programs that are research-based and effective.

Decision-Making Activities/Strategies: To facilitate the decision-making process and ensure that a wide range of ideas were considered the district provided all stakeholders with the list of the campus's identified gaps and needs. Stakeholders were encouraged to submit their ideas for solutions. All suggestions were compiled into one document and reviewed as a whole during the following scheduled planning meeting. The attending stakeholders chose the solutions that provided the best chance for generating campus reform while still conforming to the parameters of the TTIPS Program.

Goals and Interventions: The following goals and interventions were selected:

- Offering a full-day Pre-Kindergarten and Kindergarten program;
- Hire 6 Interventionists to plan/develop and work with teachers to develop classroom Tier I interventions;
- Hire 1 Pre-K teacher and lease 1 portable to reduce the student-to-teacher ratio for Pre-K bilingual classes;
- Providing high-quality professional development training to all staff;
- Reviewing instructional salaries in order to ensure that they are comparable to the salaries of local K-4<sup>th</sup> staff;
- Providing comprehensive services that encourages parent involvement;
- Improving students' access to technology and curriculum that is research-based and proven to increase students' academic performance;
- Partnering with an Evaluation Team that will identify areas of concerns.
- Increasing planning time provided through Professional Learning Communities;
- Providing teachers with additional professional development trainings that support priority school initiatives;
- Implement an after-school and summer academic extension and enrichment program;
- Restructuring classes to ensure class sizes do not exceed 20 students and the child-to-instructional ratio is no more than 10:1; and
- Meeting with campus administrators to develop the Campus Calendars to include added opportunities to engage parents and community members in the student culture.

# Schedule #13—Needs Assessment (cont.)

County-district number or vendor ID: 011-901

Amendment # (for amendments only):

Part 4: Model Selection-Stakeholder Input. Please describe how student families and community members were engaged in the needs assessment and planning process:

- Describe specific actions the campus/district took to solicit input from these stakeholders in selecting the model.
- Describe how this input was taken into consideration when selecting the model.
- Describe plans to meaningfully engage families and the community in the implementation of the selected model on an ongoing basis.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Actions Taken to Solicit Input from Stakeholders in Selecting the Model: As the district and campus began reviewing the TTIPS Program guidelines and trying to determine which intervention model would be followed, it was determined that family and community input would be required to ensure their support and participation. The district and campus staff identified which methods would be most effective in engaging these stakeholders and gathering input. Outreach was conducted through the following methods: Email, Parental Involvement Committees and Events; Professional Associations, Website, Direct Mailings, and Social Media.

Family and the community members were meaningfully engaged in assessing the program needs and selecting the school improvement model. (10 pts.) Once the public had been notified of the district's plan to apply for funding, a meeting was held that was open to the public. This meeting provided the district with the opportunity to educate the families and community members of the different intervention models that were available. A breakdown of each intervention was provided that included a list of possible benefits and downsides. In addition, families and the community members were provided with relevant data that detailed the area of weaknesses for the campus.

How Input Was Taken into Consideration when Selecting the Model: As part of the discussion, the district and campus administration informed the families and community members of the following key requirements that would need to be met as part of the Early Learning Intervention Model:

- The need to increase classroom learning time and how this would result in either an earlier start time or later end of day schedule.
- The need to have family and community members be a part of the Implementation Team.
- The need for families and community members to take a more active role in campus activities.

The meeting was opened for discussion in order to allow the families and community members to ask questions and provide suggestions. At the conclusion of the meeting, the administrative staff utilized a show of hands in order to determine which intervention model the public would most support. The families and community unanimously agreed that based on the intervention models designs and the goals of the campus, the **Early Learning Intervention Model** would meet most of the needs for the district and campus.

<u>Plans to Meaningfully Engage Families and Community in the Implementation on an on-going Basis</u>: Family and community members will be meaningfully engaged in an on-going basis through the implementation of the program. (10 pts.) In order to ensure that family and community members remain engaged throughout the implementation of the program, the administrative staff has designed the following strategies:

- Parents and community members will be provided with quarterly updates that details students' academic and behavioral growth. This notice will be sent to parents and community members via email and through a flyer. The flyer will include the date of the next Advisory Meeting to be held. During the Advisory Meeting, time will be allotted for families and community members to voice concerns and provide feedback.
- The campus calendar will be enhanced in order to include added opportunities to engage family and community members. This may include: Parent/Teacher Conferences, Parent/Community Academic Nights, etc.
- The campus and TTIPS staff will ensure that family and community members are a part of the Implementation Team throughout the Program. In the event that an individual can no longer take part in these meeting or fails to attend, the TTIPS District Coordinator of School Improvement (DCSI) will look for replacements.

# Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 011-901

Amendment # (for amendments only):

**Part 3: Commitment and Succession.** Describe how the campus and district will ensure that all project participants remain committed to the project's success. Describe your succession management strategies and how this will enable the campus and district to deliver continuous high-quality programming when there are changes in key project personnel. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Methods described for recruiting, screening, and selecting external providers ensures highest possible quality in providers. (10 pts.)

Ensure all Project Participants Remain Committed to the Project's Success: The district and campus administrators feel confident that they have the capacity and commitment to provide adequate oversight and related services to the campus staff to implement, fully and effectively, the required grant activities of the Early Learning Intervention Model. The campus has demonstrated a great need for the funds as well as a strong commitment from the School Board, Superintendent, Campus Principal, Counselor, Teachers, Campus Administration, Parents, and Community Members to ensure that the funds are used to provide adequate resources to enable the campus to raise substantially the achievement of their students. During the implementation phase, staff will continue to utilize the support of the school, principal, teachers, parents, and community to fully integrate the proposed project.

Campus Support: The campus will appoint a District Coordinator of School Improvement (DCSI) to manage all activities, participate in staff development on topics determined from the campus needs assessment, enlist campus support for the initiative, and participate in all required trainings to include the Advancing Improvements in Education Conference. Campus faculty and administrators will participate in all staff development held at the school campus.

**Teachers and Principal Support**: As a part of the Early Learning Intervention Model, the National School Climate Center, Children's Learning Institute (CLI), and Comprehensive Training Center (CTC) will provide teachers and administrators with quality materials, research, and coaching to effectively implement actions to address key practices. Workshop and professional development training will provide all school personnel with an opportunity to actively develop improvement plans, review current school data, and determine next steps. The campus will visit high-performing sites with similar demographics to determine strategies likely to impact student achievement.

<u>Succession Management Strategies</u>: To ensure that the district and campus personnel are able to deliver continuous high-quality programming when there are changes in key project staff, the TTIPS **Early Learning Intervention Model** will incorporate succession management strategies. The strategies will be aligned to ensure that they are proactive and that they target every level of the organization. The following research-based plan that will be utilized:

- The district will create job descriptions for every position that defines the behavior, attitude, skills, knowledge, experience and talent necessary to succeed in the role. These models will help teachers and staff understands what's expected of them in their current role and what it will take to be ready to move forward.
- The district will assess all teachers and staff in order to identify individuals that are prepared to take on key leadership roles. As part of the assessment, administrative staff will talk to teachers and staff about their career goals to ensure that their aspirations are aligned to the requirements of the district.
- The district will assess the teachers' current skills and identify professional trainings, skills, and certifications that may need to be acquired in order to advance.
- The identified teachers and/or staff will be assigned to "shadow" the individual that is currently filling the position in order to be provided with hands-on experience.

Through these succession management strategies, TTIPS staff will be trained in the role and function that they are assigned to and will be able to stand-in or support other key roles. This will especially be of use in the event that key personnel leave the district. Suitable replacements will be able to be garnered within the existing staff or if replacement personnel are brought in, such as a new Principal or Superintendent, exiting staff will be able to provide the new individual with support during the transitioning process.

Via telephone/fax/email (circle as appropriate)	By TEA staff person:

# Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 011-901

Amendment # (for amendments only):

**Part 4: Sustainability.** What elements of your proposed project are designed to significantly increase capacity or create a lasting change to campus culture and practices that shall be sustained after the grant period ends? How will the LEA provide continued funding and support to sustain the reform after the grant period ends? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

In designing the **Early Learning Intervention Model**, the campus proposes to provide initiatives and activities that once developed and implemented, would have the ability to be sustained after the TTIPS Program is completed. The goal of the program was not to provide an easy fix, but to restructure, enhance, and create new campus programs and procedures.

<u>Increase Capacity</u>: In order to increase capacity, the campus understands that it needs to target teachers and devise a manner to elicit a higher level of skill, confidence, and passion from them. This would require providing teachers with professional development training, materials, and support needed to ensure teachers' commitment not just to the program but also to **Red Rock Elementary**. These elements included the following:

- Contracting with Region 13 Educational Service Center to provide Instructional Coaches;
- Identifying teachers that have the experience and capacity to serve as teacher mentors;
- Hiring 6 Interventionists to plan/develop and work with teachers to develop classroom Tier I interventions;
- Providing teachers with professional development training designed to improve their classroom management skills, instruct new research-proven and provide effective teaching methods, etc.
- Implement an after-school and summer academic extension and enrichment program;
- Provide training on the use of data to adapt classroom instruction; and
- Extend learning time to allow for added core area instruction.

Through these measures, teachers could positively impact students' performance.

<u>Create Lasting Change</u>: Capacity gained through the proposed project will create lasting change to campus culture and practices that can be sustained after the grant period ends. (10 pts.) Once teachers and staff are committed to the campus and the academic success of the students, the initiatives that have been created through the TTIPS Program will have the ability to continue to be successfully sustained even after grant funding ends.

As an example, by utilizing grant funds to train teachers to serve as Teacher Mentors, these individuals will become proficient with providing training and support to teachers assigned to them. This will create a rippling effect where new teachers that join the district are continued to be mentored and trained by their peers and in time, they themselves can serve as mentors. This same concept is consistent to all of the planned initiatives and activities that are projected for this program.

In addition, the campus will hire staff, to include Teachers, Lead Interventionists, and a Parent Involvement Specialist to provide support and training to staff. It is also the intent of the campus to enforce the implementation and structure of the Bilingual Model in order to increase the academic proficiency of ELL students.

Continued Funding and Support: To support the added costs that will be associated with the initiatives (i.e. increased wages, extra-duty pay for planned activities, etc.), the district will actively dedicate funds or look for funding sources that help support and sustain this program over an extended period of time. For example, Title II, Part A funding will be utilized to continue to provide professional development training to Teacher Mentors, who will utilize the Trainer-of-Trainer model to impart knowledge to other teachers. This will help to ensure the district is able to support the cost for providing on-going training. Instructional Materials Allotment (IMA) funds will be utilized to purchase teaching materials that are research-proven to increase student participation and scores.

In addition, a sustainability plan will be enforced that will include the creation of a Handbook of Operating Procedures (HOOP). The HOOP will include an active and careful examination of the following approaches to seek effective avenues to ensure that the program continues beyond the grant period: make better use of existing resources; maximize federal, state, and local revenue; create more flexibility in existing streams; continue building public-private partnerships; and, generate newly dedicated revenue.

#### Schedule #15—Project Evaluation

County-district number or vendor ID: 011-901

Amendment # (for amendments only):

Part 1: Establishing Performance Measures. Describe the processes used to establish challenging yet attainable performance measures that will result in substantially improved student achievement and the campus' ability to exit lowest-performing status. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Processes Used to Establish Performance Measures: In the establishment of the performance measures for the TTIPS Early Learning Intervention Model, the TTIPS Implementation Team understood that it would be important that they be fashioned to encourage performance improvement, effectiveness, efficiency, and appropriate levels of internal controls. In addition, they would need to incorporate "best practices" related to the performance being measured and be aligned to the identified goals of the program. Therefore, performance measures were created that would align with the TTIPS Vision and Focus for School Reform and improve substantially students' achievement. Below are the steps that were followed:

- Step #1: Identify which activities and interventions can be utilized to impact each goal. This will help to ensure that all goals are tracked throughout the program and that modifications can be made to the program as needed.
- Step #2: Identify which resources/data source can be utilized to measure progress. (i.e. grade books, test, etc.)
- Step #3: Identify who will be the targeted group that will be surveyed or assessed.
- Step #4: Identify which individual will be responsible for inputting data and/or distributing data collection instrument. (i.e. surveys, sign-in sheets, etc.)
- Step #5: Identify the individual that will be responsible for collecting data.
- Step #6: Create a schedule for inputting, collecting, and analyzing data.

Campus' Ability to Exit Lowest-Performing Status: The district is setting high performance measures, proposes to incorporate profound and radical change, and will hold personnel accountable for meeting standards. By tracking these performance measures, the district can ensure the campus has continued growth not just at the end of each year, but instead a steady increase in students' academic and behavioral performance, parent and community involvement, and teachers' experience. This will help ensure the campus will meet their targeted goals and exit lowest-performing status.

Part 2: Data Collection. Describe the processes for collecting data at a detailed level to inform effectiveness of each intervention. Data at a detailed level would include examples such as: participation rates at the activity-level, dosage rates of an intervention per student, teacher practice observed rates at the targeted strategy-level, or academic outcome data at the activity-level per student. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

As indicated in *Part 1: Establishing Performance Measures*, the campus has identified various types of data that will be collected to inform campus staff on the effectiveness of each intervention and activity. This includes the following: **Qualitative Data:** Will include:

- Observations TTIPS DCSI, Principal, Evaluation Team, and Instructional Coaches will gather data by identifying and
  recording the characteristics and behavior of students, teachers, staff, parents, and community members through
  observation. This will be especially important in determining the success in improving the school's climate.
- Interviews The DCSI and External Evaluation Team will conduct interviews on randomly selected teachers and students. The interview will include a set of standard questions that will be asked on a one-to-one basis in order to be able to obtain straightforward, detailed replies.
- Focus Groups The External Evaluation Team will conduct focus group interviews on select groups. These groups
  will be brought together in order to be asked relevant and game changing questions. The goal will be to establish a
  dialog that can result in identifying common issues and encouraging input and suggestions, as well as, a culture of
  continuous communication and improvement.

#### Quantitative data: Will include:

- Surveys The External Evaluation Team will conduct online large group surveys. These groups will include students, teachers, and parents. The surveys will be utilized to determine the success of the program by determining the number of individuals that are partaking in activities and interventions, how often they are participating, and the degree to which the participants are satisfied with the activities and interventions.
- Generated Reports The DCSI, teachers, and PEIMS department will generate data reports that will be utilized to
  measure students' growth. This will include reports from RtI software programs, PEIMS 425 Reports, etc. These
  reports will be submitted to the External Evaluation Team to be utilized in the Evaluation Report that will be submitted
  to TEA and the district.
- Progress Reports and Sign-in Sheets The teachers will be required to track students' daily assignments, attendance, and classroom behavior. Copies of the students' progress reports will be submitted to the DCSI for tracking. In addition, sign-in sheets will be collected and inputted into an electronic log.

Amendment # (for amendments only):

Part 3: Assessing effectiveness of interventions. Describe the processes and staff responsible for assessing the effectiveness of program activities and interventions on an ongoing basis. How are problems with project delivery to be identified and corrected throughout the project?

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point

The table below was created to provide details on the person that will be responsible for assessing the effectiveness of each program activity and intervention, as well as, how problems will be identified and corrected throughout the program.

		nted during the campus' implemen	ntation meetings. During this time

Data results and feedback will be reviewed and presented during the campus' implementation meetings. During this time, the Campus Implementation Team will have the opportunity to discuss and select how any issues will be addressed. The DCSI will be responsible for ensuring that any changes to the program delivery are implemented immediately. If a change in the program is needed or a new vender is required, an amendment will be submitted to TEA for approval. All parents, teachers, staff, students, and community members will be notified of changes through email or flyer.

Amendment # (for amendments only);

**Statutory Requirement 1:** Describe your rigorous review process used to select highest-quality and best-fit external providers for your project. Include processes to:

- Identify a reasonably sized pool of prospective external providers
- Assess level of experience in delivering the work
- Determine a history of prior success; consistent strong results in similar projects
- Conduct a risk-assessment related to contracting
- Execute final selection and procurement

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The district's TTIPS Implementation Team utilized a rigorous process to select high-quality external providers to conduct services and deliver products that would be instrumental to the school reform. In order to ensure the proper external providers were selected, the campus first reviewed needs of the campus, the goals of the program, and the planned services and initiative.

The external staff and external providers on the project each serve a function that is essential to meet program goals and their roles are non-duplicative. (10 pts.) Based on this information, the Implementation Team categorized the types of eternal providers that would be required. This included Professional Development Trainers, Interventionists, Technology Vendors, External Evaluation Team, Curriculum Vendors, and more.

<u>Pool of External Providers Identified</u>: With this list in hand, the Implementation Team began searching for possible providers in each of the identified categories. Input was solicited from previous TTIPS awardees, top performing districts and campuses; and neighboring districts. These among other identified providers were researched in order to be presented for review during the next scheduled Implementation Meeting. Among information that was obtained was:

- Menu of Services It is the intent of the TTIPS program to provide teachers, students, staff, parents, and community members with a wide-range of professional development training, products, and services that will ensure the district exits needs improvement status. What Works Clearinghouse has also provided research on systems and products that have produced positive results
- Level of Experience The district researched the number of years of service and requested information pertaining
  to the level of experience of the staff and CEO and a list of previous clients. Any individuals that did not have at least
  10 years of experience in providing services in the same category were notated. Additionally, previous clients of each
  provider were contacted in order to solicit feedback;
- History of Prior Success As part of the feedback that was solicited from previous clients, information was
  requested regarding the degree to which the services provided had been successful in achieving the intended
  results; and
- Associated Costs A breakdown of fees were researched in order to create cost comparison sheet per category.
   Providers with the best cost per service were notated.

During the meeting, the Implementation Team reviewed the list that included all of the research that had been gathered. Based upon the information, the Implementation Team selected various vendors from all categories that would be considered. These individuals would be scheduled to provide a product demonstration for selected teachers, staff, and the principal, as well as to provide a bid or invoice for identified services.

<u>Final Selection and Procurement</u>: Once all demonstrations were provided and conducted, a provider for each category was selected. As per district's policy, if awarded, any invoice that exceeded criteria established by EDGAR will be scheduled to be presented for school board approval during the next scheduled school board meeting.

Contracting Risk-Assessment: The Implementation Team assessed how the contracting of each external provider would support the TTIPS goals for campus reform and how the relationship would be managed. Areas of concern included the security issues related to the accessibility that would be granted to technology and students. The campus was aware that by allowing access to any provider to install technology and/or software in the district, student, teacher, and staff records were at a risk of being compromised. In addition, by allowing external provider access to the campus, they would also gain access to the students. To minimize the threat to students, teachers, staff, and parents, t the district will enforce a policy that required all providers pass a criminal background check prior to being admitted on campus property. This will include any individual that is employed or subcontracted through the agency to provide any level of service at the campus. In addition, each provider will be required to submit a signed Confidentiality Form. This form will help to ensure students, teachers, staff, and parent's information is protected as required by FERPA.

Amendment # (for amendments only):

Statutory Requirement 2: External Provider Oversight. Describe your rigorous and ongoing process to provide oversight to external providers to ensure their continued quality and success in meeting project deliverables. Include in the description:

- Proposed schedule to regularly review external provider performance
- Campus/district personnel responsible for oversight and management of providers
- Process/instruments used to measure and monitor success of providers
- Corrective actions or additional supports utilized to improve provider performance
- Criteria/sequence of actions to be taken to remove/replace a low performing provider

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

On-going Oversight to External Providers: Methods described for rigorous oversight of external providers ensures ongoing high-quality service and success in delivering outcomes (10 pts.) The campus will employ a District Coordinator of School Improvement (DCSI) that will be responsible for providing oversight to the external providers. This individual will be required to:

- · Be present at the onset of the contractual agreement;
- Attend trainings;
- Oversee the installation of technology, hardware, and/or software;
- Meet with teachers, students, staff, parents, and community members to discuss the quality and ease of implementation of products, services, and strategies provided by the external providers;
- · Respond to any issues and problems; and
- Provide the Implementation Team with irregular updates on the external providers' performance.

Review of External Provider Performance Schedule: Since each provider will deliver services at various times throughout each year and will range in frequency, the district elected to create an online calendar of events that will include each of the external providers dates of expected services, method that will be employed to review performance, dates when the preview of performance will be conducted, dates when issues will be addressed with the external provider, and dates when assessment results will be submitted to the Implementation Team for review. This calendar will be linked to the DCIM, Principal, and Implementation Teams cell phones in order to provide up to date notification of expected events. Through this manner, DCIM will be able to provide ongoing and continuous oversight.

Personnel Responsible and Instruments for Measuring, Monitoring, and Management: As previously mentioned the DCSI will be responsible for providing oversight and managing each of the contracted external providers. In order to ensure that each of the providers is held to a high-level of excellence, the DCSI will be assisted with this process by various staff and teachers.

- Teacher Mentors and Interventionists will be utilized to solicit input from teachers regarding the professional
  development and implementation of products and services. To gather this information, the mentors will host
  discussion groups directly following the training, at which time teachers will be asked to complete questionnaires.
  These questionnaires will ask teachers input regarding the quality of the information that was provider, the
  presenters ability to articulate new procedures in a manner that is easy to follow, and the teachers opinion of the
  relevance of the training that was provided.
- The Technology Director will be utilized to provide their professional opinions on external provider that provide the technology, hardware, and software. The Technology Director will be asked to rate the quality of the products that are provided, the ease of access of installation, the compatibility with existing resources, the knowledge and experience of the installation technician, and the support and training that was provided to teachers and staff. In addition to compliment his own questionnaire, the Technology Director will also solicit the opinions of teachers and students that will be utilizing the new resources.

Corrective Actions to Improve Performance: Based upon the results of the assessments, the DCSI may be required to meet with the providers to request a modification of services or additional support or trainings. Individuals that provide technology, hardware, and software may request to provide additional trainings to teachers and or to replace products that are not functioning properly. Professional development trainers may need to work with the DCSI to review the menu of available trainings and identify different trainings. If the issue is with the presenter, the DCSI may need to request a different presenter be assigned to the campus.

Remove/Replace A Low Performing Provider: In the event that issues with the provider cannot be resolved, the DCSI may suggest to the Implementation Team that the provider be replaced. An alternate provider or intervention will be presented as a solution. If it is agreed that the change is warranted, the provider will be notified of the campuses decision and if needed, an amendment will be submitted to TEA for approval.

Schedule #16—Responses to Statutory Requirements (cont.)			
County-c	district number or vendor ID: <b>011-901</b> Amendment # (for amendments only):		
Statutory Requirement 3: Pre-Implementation Year. List and describe primary activities planned for the Planning/ Pre-Implementation period in the grant to occur from January 1, 2016-July 31, 2016. These activities shall be designed to prepare the district and campus for stronger full Implementation than would be possible without Pre-Implementation. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.			
1.	Will enroll in the Children's Learning Institute (CLI) in order to implement the Texas School Ready! Project.		
2.	Will select the individual that will serve as the District Coordinator of School Improvement (DCSI).		
3.	Will create a TTIPS Implementation Team that will consist of TTIPS staff, district and campus staff, teachers, parents, and community members. The Implementation Team will be responsible for meeting on a regular basis and reviewing data collected and determining if the campus is on target to meet proposed objectives.		
4.	Will purchase and provide training on Pre-Kindergarten through 2 <sup>nd</sup> instructional materials that are aligned with the Texas State Board of Education.		
5.	Will work with the assigned Technical Assistance Provider (TAP) to create an Implementation Readiness Portfolio that is aligned to the needs of the campus.		
6.	Will meet with campus staff and teachers to create Professional Learning Communities (PLC). A schedule will be created that will allow the PLC's to meet weekly in an effort to ensure that curriculum is vertically aligned.		
7.	Will contract with an Evaluation Team to conduct surveys, walk-throughs, and distribute questionnaires that will provide the campus with base-data that will be used to create the Implementation Readiness Portfolio.		
8.	Will meet with the district and campus staff to enhance the Campus Calendar to include added opportunities to engage parents and community members in the school culture, including: Parent/Teacher Meetings, Open House, Parent/Community Academic Nights, etc.		
9.	Will meet to assess staff and determine which teachers have the experience needed to serve as Teacher Mentors for new and struggling teachers.		
10.	Will hold a meeting, which will be open to the public, in order to solicit feedback and suggestions regarding the activities to be provided through the grant program.		
11.	Will lease and install 1 portable building and will hire 2 Pre-Kindergarten teachers to reduce the student-to- teacher ratio for Pre-K bilingual classes. Will also hire 6 Interventionists that will assist in developing Tier I Interventions.		
12.	Will meet to review the student-to-teacher ratio in order to determine the number of support staff (paraprofessionals) are needed to ensure they meet the 10:1 student:teacher ratio.		
13.	Will review the available staff in order to ensure the campus has a teacher employed that has a Bachelor's Degree in Early Childhood Education or a field within a state-approved alternative program if not one will be hired.		
14.	Will review and become familiar with the Texas Pre-Kindergarten Guidelines (PKG) in order to ensure the program operates in compliance with all regulations.		
15.	Will submit the quarterly progress reports on time, which will document the school's continuous processes around data analysis, needs assessment, planning, implementation and monitoring; as delineated in the Texas Accountability Interventions System (TAIS) framework.		
16.	Will schedule and meet with all approved vendors and collaborative partners for product demonstrations, create orders based upon the campus's needs, arrange delivery and set-up of products, and schedule staff trainings.		
17.	Will meet with the Technology Director in order to ensure all hardware/software is compatible and that the existing infrastructure will support the new hardware/software. If needed, added infrastructure will be purchased.		
18.	Will meet with the Chief Financial Officer to ensure all the grant accounts are properly set-up for accounting purposes and that the purchasing processes are being properly implemented.		
19.	Will create a list of professional development trainings that are needed by staff and teachers, which will be based upon solicited feedback, survey results, walk-throughs, and academic needs assessment.

Texas Education Agency

### Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 011-901

Amendment # (for amendments only):

Statutory Requirement 4: Coordinated and Integrated Efforts. Describe any ongoing, existing efforts that are similar or related to the planned project. How will you coordinate efforts to maximize effectiveness of grant funds? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The proposed program will be coordinated with similar or related efforts using existing resources and facilities and with other appropriate community, state, and federal resources.

On-Going, Existing Efforts Similar or Related to the Planned Project: With the recent decrease in state and federal funding the campus has struggled to provide programs that are designed to generate campus reform. The campus does; however, provide limited regular and on-going professional development to all teachers and staff. In addition, state Instructional Materials Allotment (IMA) funds are utilized to purchase teaching materials that are research-proven to increase student participation and scores. Finally, the campus provides assessments and conducts walkthroughs for all teachers on a regular basis.

How Coordinated Efforts will Maximize Effectiveness of Grant Funds: If awarded, the campus will provide existing program resources to support the proposed compensation teacher incentive plan with technology equipment and training materials. Teachers and staff will also be allowed to utilize existing school facilities, computers, TV/DVD's, projectors, and overhead materials as well as participate in staff trainings and meetings. In addition, the campus will utilize existing staff to provide support to the project. The Business Office Manager will be utilized to manage grant expenditures; campus administrators will conduct assessments and evaluations; and Board members will be asked to keep stakeholders informed of the on-going progress or the project. These funds will not be used to divert or decrease existing services required by state law, State Board of Education, or by local policy.

The campus administrators feel confident that they have the capacity and commitment to provide adequate resources and related services to the campus staff to implement, fully and effectively, the required activities of the Early Learning Intervention Model. The campus has demonstrated a great need for the funds as well as a strong commitment from the school board, Superintendent, Chief Academic Officer, Campus Principal, Counselor, Paraprofessional, Teachers, Site-Based Decision-Making Committees (SBDM), Campus Administration, Parents, and Community Members to ensure that the funds are used to provide adequate resources to enable the campus to raise substantially the achievement of their students. During the implementation phase, staff will continue to utilize the support of the school, principal, teachers, parents, and community to fully integrate the proposed project.

Transformation, Texas State-Design or Early Learning model shall indicate below with "N/A". The provided, front side only. Use Arial font, no smaller than 10 point.  Student growth plays an intricate part in a teacher's evaluation. Of the 8 parts of the PDAS
Describe the data sources for student growth accounted for in the teacher and principal evaluation system. Include how student growth is weighted in evaluation:	teacher evaluation, student growth accounts for 5. In the new appraisal system, TTESS all 6 sections are centered in student progress and instruction. Therefore, to determine student's growth, the campus utilizes various systems to collect this data. They include the following: STAAR Testing: The campus will utilize STAAR scores for the 2014-2015 calendar school-year as the basis for student growth comparison. Subsequent testing scores will be utilized in order to see if the campus has an increase in the number of students that met the standards. In addition, the campus will track the number of students by teachers that met the standards in order to determine if each teacher is being effective in the classroom.  Classwork: The campus will review students' classwork regularly in order to determine whether students are showing significant academic growth. Student class scores will be compared to previous years as well as to the teacher's peers in order to determine whether the teacher is being effective in the classroom.  Walk-Throughs: District, campus, and TTIPS staff will conduct walk-throughs during the teacher's instructional period in order to determine if the teacher is effectively engaging and managing the students and classroom.  Rtl Software: Teachers will utilize Rtl software to assess students each month. Assessment results will assist the campus in determining if students' academics are improving.  Student Attendance and PEIMS 425 Reports: The TTIPS and campus staff will review attendance and PEIMS reports in order to determine if PBIS strategies are being implemented effectively in the classroom or are needed.  Additional data sources include: TPRI, TejasLEE, MCLASS, TELPAS, and district created assessments.
Describe how the evaluation system design includes multiple observation-based assessments and ongoing collections of	As can been seen in the data that will be generated above, the campus will gather data from multiple sources throughout the five-year grant period in order to determine if teachers are positively impacting students' performance.  Walk-throughs and assessments will be conducted every six (6) weeks by the District Coordinator of School Improvement (DCSI), Teacher Mentors, Interventionists, and Instructional Coaches on all core area teachers. An annual walk-through and assessment will be conducted by the Principal on all teachers. In addition, teachers in each core areas will be selected to have a walk-through and assessment conducted by the External Evaluation Team.
professional practice	Data will be collected through these multiple sources throughout each school-year to track teachers' effectiveness, practices being implemented, and classroom management during the school-year and provide struggling teachers with additional professional development training, resources, and support.
Describe how the evaluation system was developed with teacher and principal involvement:	District and campus staff met in order to discuss the various methods that can be utilized to evaluate teachers. The administrators understand that it was imperative that multiple avenues be utilized to assess the teachers' performance. This would provide a more holistic means to ascertain the teachers' effectiveness.
	Teacher input was solicited in order to ascertain that the collection of data would not interfere with classroom instruction. By utilizing Rtl software that includes a student reporting system and generate reports, it was agreed that the teachers would not be required to sacrifice any classroom instructional time.

Amendment # (for amendments only):

Statutory Requirement 12: Developing an Early College school-wide strategy (continued)

Applicants proposing a **TEXAS STATE-DESIGN** model must deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS). Please review the description of the Texas state-design model in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below. Applicants not proposing a Texas State-Design model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the academic, social, college readiness and college access services that will be in place by Fall 2016, to support student success in college-level coursework and continued post-secondary education pursuits:

Amendment # (for amendments only):

Statutory Requirement 13: High-quality preschool programming

Applicants proposing the EARLY LEARNING INTERVENTION model must deliver a preschool program that meets the definition included in program federal requirements and is integrated in a campus-wide school improvement model. Please review the description of requirements under the Early Learning Intervention model in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below. Applicants not proposing an Early Learning Intervention model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the schedule and staffing pattern for the fullday preschool that will meet standards for high qualification of staff. required child-to-staff ratios. required class size limitations, and comparable

staff salaries.

Indicate if the campus will collaborate with communitybased provider to deliver the preschool.

The proposed preschool schedule will consist of an 8-hour day. Students will arrive and be provided with a nutritious breakfast that will prepare them for the day. During the course of the day, students will participate in fun and engaging activities that will incorporate each of the 5 core areas. This will include, but is not limited to:

- Math Workshops (i.e. counting games, identifying more-than and less-than, etc.);
- Reading Workshops (i.e. read aloud, word identification, etc.); and
- Writing Workshops (i.e. tracing letters and numbers, etc.).

None of the classrooms will exceed 20 students and will consist of a certified teacher and a paraprofessional. This will ensure the 10 student to 1 instructional staff ratio. In addition, as required a teacher with a bachelor's degree in early childhood education or a bachelor's degree in any field with a state-approved alternative pathway will be hired to serve as a teacher mentor for all of the Pre-Kindergarten and Kindergarten teachers. This individual will be required to have a minimum of 5 years of experience working in an early education setting. Furthermore, the campus will contract with the University of Texas Health Science Center's Children's Learning Institute (CLI) to provide to provide proven learning solutions derived from, and supported by, documented research.

Describe how the preschool program proposed is: research-based; vertically aligned in math, science, literacy, language through the elementary grades; and develops socio-emotional skills:

The campus will implement the Texas School Ready! designed to increase children's school readiness. The Texas School Ready! design utilizes five evidence-driven components: research-based curriculum, technology-driven child progress monitoring, facilitated teacher professional development, ongoing teacher mentoring, and sustainability to help ensure the success of the program.

In addition, the Pre-Kindergarten and Kindergarten teachers will take-part in the PLC's that will meet on a weekly basis with other teachers. These meeting will allow for the planning of daily lesson plans and to vertically align classroom lessons with other grade levels. This will include math, science, literacy, language, and socio-emotional skills.

Describe the student assessment data that will be examined for the preschool and kindergarten classes that inform continuous improvement and next-grade readiness:

C-PALLS+ Child Progress Monitoring Tool will be utilized to provide immediate feedback reports on teacher's performance. This report will show children's progress in rapid vocabulary naming, rapid letter naming, phonological awareness, mathematics, social and emotional development, writing, and book and print knowledge. Administration, teachers, and TTIPS staff will use this information to guide and provide continuous improvement and next-grade readiness.

In addition, the district will utilize the Texas Primary Reading Inventory (TPRI) to assess students. Children of limited English will be assessed utilizing and Tejas LEE. The district will assess each child three (3) times per year, which will include: Beginning of the Year (BOY), Middle of the Year (MOY), and End of the Year (EOY). As required by TEC, §28.006 (Reading Diagnosis), all data will be entered into the Early Childhood Data System's (ECDS) Texas Student Data System (TSDS). The ECDS will be used to collect data and inform school stakeholders of the effectiveness of the Pre-Kindergarten Program that is being implemented.

TEA Program Requirement 1: Interventions to meet Model Requirements and Timeline

Critical Success Factors are the key research-based focus areas, aligned with the statutory requirements of this program, under which school improvement initiatives shall be planned. Research provides evidence that effort and investment in these focus areas is most impactful to achieve continuous school improvement.

Academic Performance is the foundational Critical Success Factor. Through gains in Critical Success Factors of teacher quality, effective leadership, data-driven instructional decisions, productive community and parent involvement, efficient use of learning time, and maintaining a positive school climate, campuses can increase academic performance for all students.

List the most important areas in which the campus will achieve increased academic performance through an improved instructional program through this grant.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Crit	tical Success Factor:	Academic Performance/Improve the Instructional Program		
			ed for entation	
1.	The campus v researched ar	<ul><li>✓ Year 1</li><li>✓ Year 2</li><li>✓ Year 3</li></ul>	⊠ Year 4 ⊠ Year 5

TEA Program Requirement 2: Interventions to meet Model Requirements and Timeline (cont.)

Critical Success Factors are the key research-based focus areas, aligned with the statutory requirements of this program, under which school improvement initiatives shall be planned. Research provides evidence that effort and investment in these focus areas is most impactful to achieve continuous school improvement.

List and briefly describe the interventions selected for implementation for this Critical Success Factor. Ensure that interventions selected fulfill all statutory requirements listed in the program assurances, and support Problem Statements and Root Causes identified through your needs assessment.

Additionally, indicate the period during the grant cycle in which the activities will be implemented. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Critical Success | Increase Teacher Quality

	Factor:	increase reacher Quanty						
	Planned Intervention Period 1 Implement							
1.	As part of the TTIPS <b>Early Learning Implementation Model</b> , the campus will create Professional Learning Communities (PLC). Five PLCs will be created that will be broken down by core areas. Each PLC will meet weekly in order to discuss lesson plans and ensure vertical alignment, discuss best practices, review data and provide suggestions and feedback, and discuss areas of concern.							
2.	Current teachers will be reviewed in order to identify individuals that are qualified to serve as Teacher Mentors. These individuals will be provided with professional development training that will prepare them to serve in their new role of Trainer-of-Trainers. Each Teacher Mentor will be assigned teachers that have less than 2 years of experience and/or are struggling to provide support and oversight to them.							
3.	The campus will provide teacher's professional development training that will provide them with research-based strategies that are proven to increase student's participation, improve academics, and expand their classroom management skills. Through these trainings, teachers confidence will improve; thus, helping to ensure an increase in teacher's quality.  Year 1  Year 2  Year 3							
4.	Research-proven resources (technology, software, hardware, manipulatives, etc.) will be provided to teachers that are designed to improve students' engagement and academics. Each participating teacher will be provided with professional development training on the proper use of these resources.							
5.	Instructional of teachers on he and applying t	⊠ Year 1 ⊠ Year 2 ⊠ Year 3	⊠ Year 4 ⊠ Year 5
